

# HEAD-TO-BRAIN: PERFORMANCE HEADROOM

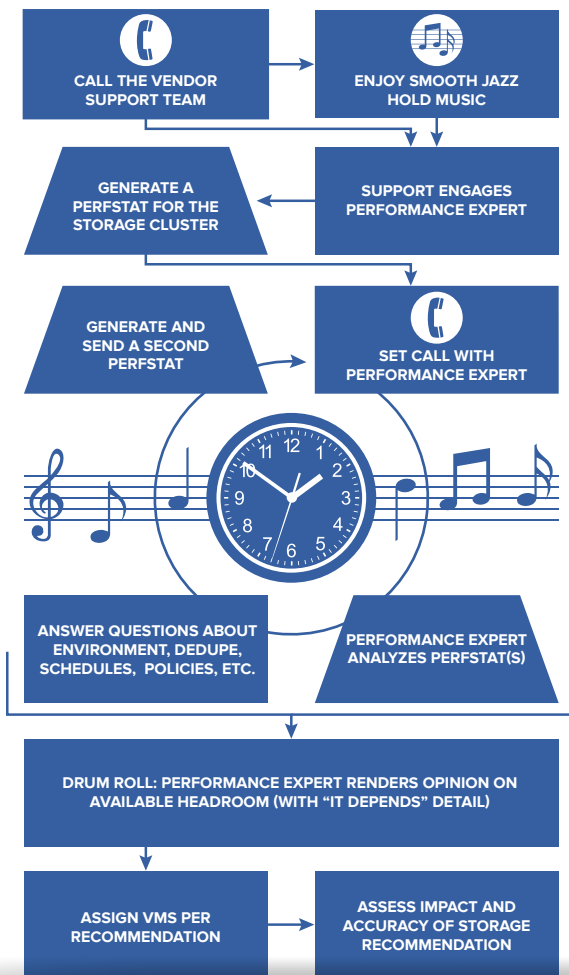

Conventional Storage has a big head, whereas Tintri has a big brain. Here's one example: what steps must you take (and how much hold music must you endure) to determine your performance headroom and ability to accommodate more VMs?

*“Issues that used to take days now take minutes.*

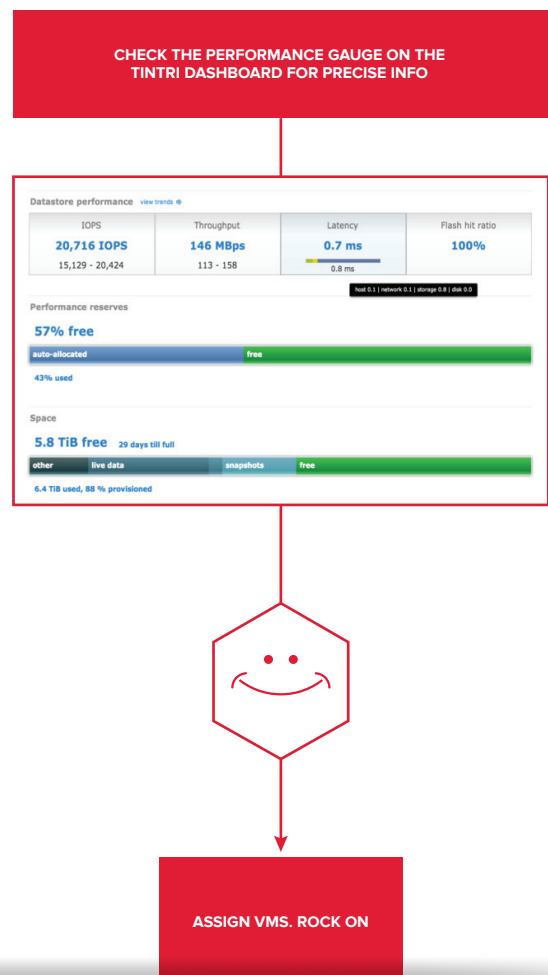

*The best part is that we are able to monitor mission critical VMs in real-time via the VMstore GUI.”*

## CONVENTIONAL STORAGE

## TINTRI

**TINTRI CHALLENGES CONVENTION. WE BATTLE THE ‘STORAGE QUO’ TO SAVE YOU FROM SMOOTH JAZZ.**

**PLEASE CONTACT YOUR RESELLER OR [INFO@TINTRI.COM](mailto:INFO@TINTRI.COM) FOR MORE INFORMATION.**
